RAPHAEL EARL SALAYOG

ABOUT

Aspiring software engineer specializing in front-end development. I am a hard-working, continuous learner, creative, and proactive individual. I constantly strive to improve my skills by learning new things and trying different methods of doing things. I am knowledgeable in various web development tools such as HTML, CSS, JavaScript, TypeScript, React.js, Redux, Next.js, Node.js, Express.js, MongoDB, Socket.io, Java, MySQL, Ant Design, Tailwind, Postman, Git, GitHub, and Bitbucket.

SKILLS

- Web Development
- Responsive Web Design
- API Integration
- Version Control: Git

- Problem Solving
- Collaboration and Communication
- Team Player

EXPERIENCE

Front-end Developer Intern - *(Mar - Jun 2023)*

Xurpas Inc. - *Makati, Philippines*

- Participated actively in daily stand-up meetings in accordance with agile development principles in order to report on progress, spot any obstacles, and work with the development team to jointly organize the day's tasks.
- Developed the front-end of a website by utilizing a tech stack that includes HTML, CSS, JavaScript, React.js, Next.js, TypeScript, GraphQL, Ant Design, and version control through Bitbucket.
- Collaborated with other development teams.
- Completed React.js training course in Udemy.

EDUCATION

STI College San Jose Del Monte - *(2019 - 2023)*

Bachelor of Science in Information Technology

- Graduated with Cum Laude
- Accomplished the development of Ordering and Inventory Management with Decision Support System for a pet shop.
- Developed strong foundational knowledge in Java, HTML, CSS, JavaScript programming through coursework and hands-on projects.

CERTIFICATE

- React- The Complete Guide (incl Hooks, React Router, Redux)
- SAP Business One
